James R. McDonald, CPA statements.

We have audited the accompanying statement of financial position of Neighborhood Partnerships, Inc. (a nonprofit corporation) as of June 30, 2009, and the related statements of activities, functional expenses, and cash flows for the year then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from Neighborhood Partnerships, Inc.'s 2008 financial statements and, in our report dated October 23, 2008, we expressed an unqualified opinion on those financial statements.

INDEPENDENT AUDITOR'S REPORT

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Neighborhood Partnerships, Inc. as of June 30, 2009, and changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

(NP or the Organization), formerly The Neighborhood Partnership Fund, is an Oregon nonprofit corporation which was incorporated as a separate entity as of December 31, 1998. Prior to incorporation, NP operated as a fund of The Oregon Community Foundation (OCF). NP operated as a 501(c)(3) supporting organization of OCF from 1998 until 2006. NP changed its classification from a supporting organization of OCF to a publicly supported charitable organization in 2006 and received an advance ruling from the Internal Revenue Service dated December 5, 2006.

The Organization receives support from public and private foundations, government agencies, and corporations. During the year ended June 30, 2009, NP received approximately 63% of total support from two entities and during the year ended June 30, 2008, received approximately 71% of total support from four entities.

NP's programs support three primary goal areas:

- To give communities tools and resources to thrive
- To move families out of homelessness and poverty
- To create family economic stability and build family financial assets

To Give Communities Tools and Resources to Thrive:

**Policy and Advocacy:** Through NP's policy and advocacy efforts, the Organization builds ongoing relationships with decision leaders and inspires them with a passion for community development. Research, creativity, and proven approaches are used to develop our proposals. Neighborhood Partnerships acts as a convener for the statewide Housing Alliance, which acts to educate policy makers and advocate for affordable housing needs within state government. Because of NP's work to bring diverse parties together, the Organization has seen a remarkable shift in attention to housing needs and a new commitment to providing critical funding streams for communities. NP's work on homelessness and asset building also fuels this policy work, and helps the Organization develop, test and promote strategies that work across systems and traditional funding streams.

### 1. DESCRIPTION OF ORGANIZATION, Continued

**Oregon Community Development Collaborative (OCDC) and Portland Neighborhood Development Support Collaborative (PNDSC)c:** NP works in partnership with The Enterprise Foundation, Portland's Bureau of Housing and Community Development, and Oregon Housing and Community Services to fund operating expenses of Oregon community development corporations. These collaborative structures assist organizations in developing benchmarks for success, monitoring progress, and addressing organizational challenges. NP's role as program administrator keeps NP integrally connected to the industry.

**Training and Technical Assistance (Conferences and Training):** NP's training and technical delivery system has three components. First, NP strives to provide national caliber trainings in leadership, management, and technical issues. Second, NP works to nurture peer support networks so that staff have the ability to talk through approaches, problems and concerns in a supportive environment. Third, NP partners to provide on-site technical assistance as a follow up to group learning so that lessons and new approaches can be fully implemented. Emerging issues that NP is addressing include succession planning, asset management, long-term portfolio planning, program design and evaluation, resident service program best practices, and leadership for emerging leaders.

### To Move Families out of Homelessness and Poverty

**Bridges to Housing**: The nationally-recognized Bridges to Housing program serves high need homeless families in Clark County, Washington and in Clackamas, Multnomah, and Washington counties in Oregon. The Bridges to Housing model allows local governments and private foundations to leverage their resources and supports service providers as they work to improve the lives of high need families. Bridges to Housing provides housing, intensive services and child care in an effort to move families out of crisis and keep future generations out of homelessness. The Organization served approximately 200 families in 2009, while inspiring systems change and improving case management. Two related demonstration projects bring together partners to evaluate the added impact of services plus housing. One brings together service providers and the workforce training system to look at employment success. Another seeks to capture the property related benefits of having services available to residents on site.

### 1. DESCRIPTION OF ORGANIZATION, Continued

#### To Create Family Economic Stability and Build Family Financial Assets

**IDA Program**: Neighborhood Partnerships is the non-profit administrator for the State of Oregon's Individual Development Account (IDA) Tax Credit Program. Contributions to NP are allocated to a network of partner organizations that provide financial literacy training, financing for education, micro-enterprise development support, and help with homeownership. In 2008, NP received \$4.5 million in donations for this program (recorded as a liability, Oregon IDA initiative funds, on the statement of financial position), which will help low-income Oregonians across the state increase their financial education and stability by saving for and purchasing an asset. Partners offering IDAs operate in 30 counties in Oregon, and are rapidly expanding to cover every community in the state.

**Resident Services:** Housing, while a critical component of family stability, is not always enough to allow low income families and individuals to make the most of their opportunities and succeed. NP's resident services project seeks to measure both individual outcomes (better grades in school, financial literacy) and system-related outcomes (lower involuntary turnover, lower maintenance costs).

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### **Basis of Presentation**

Net assets and all balances and transactions are presented based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the Organization and changes therein are classified and reported as unrestricted or restricted net assets. Unrestricted net assets are those that are not subject to donor-imposed stipulations. Temporarily restricted net assets are subject to donor-imposed stipulations that will be met, either by actions of the Organization and/or the passage of time.

### Cash and Cash Equivalents

The Organization considers all highly liquid investments with maturities of three months or less at the time of purchase to be cash equivalents. Restricted cash includes cash designated for specific purposes by grantors.

### Property and Equipment

Acquisitions of property and equipment in excess of \$500 are capitalized. Property and equipment purchased are recorded at cost. Donated assets are reflected as contributions at their estimated values on the date received. Depreciation of property and equipment is computed on the straight-line method based on estimated useful lives of three to ten years.

Level 2: Observable inputs other than those included in Level 1, such as quoted market prices for similar assets or liabilities in active markets, or quoted market prices for identical assets or liabilities in inactive markets.

Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair values requires significant management judgment or estimation.
